

CHRISTOPHER LINDSAY

christopher.lindsay@yale.edu

EDUCATION

| | |
|---|---|
| Yale University <i>Astronomy PhD Candidate. (M.S., M.Phil. in Astronomy, 2022)</i> | August 2020 - Present New Haven, CT |
| University of Southern California (USC) <i>B.S. Astronomy; B.A. Environmental Studies; Jazz Studies Minor</i> | August 2016 - May 2020 Los Angeles, CA |

RESEARCH EXPERIENCE

| | |
|--|--|
| Graduate Research in Stellar Astrophysics <i>Advisor: Professor Sarbani Basu</i> | August 2020 - present Yale University |
|--|--|

- Using asteroseismic data and modelling techniques to investigate interior mixing and angular momentum processes in evolved solar-type oscillators.
- Investigating stellar flares and solar flare in *TESS*, *Kepler*, and Solar Dynamics Observatory (SDO) data with machine learning. Advising Yale University Senior Daniel Chang.

| | |
|--|--|
| Undergraduate/Graduate Research in Helioseismology <i>Advisor: Professor Edward Rhodes</i> | August 2016 - present University of Southern California |
|--|--|

- Processed solar oscillation data from SDO and the Solar and Heliospheric Observatory (SOHO) satellites in order to examine solar atmospheric properties across multiple solar cycles.
- Supported NASA's JUNO mission and took heliosismic data at the Mount Wilson Observatory.

PUBLICATIONS

[Listed Here in a [Public ADS Library](#)]

First Author Papers

- **Christopher Lindsay**, Joel Ong, and Sarbani Basu. 2023 (*ApJ*, In Review) *Fossil Signatures of Main-sequence Convective Core Overshoot in Subgiant Stars Estimated through Asteroseismic Analysis*
- **Christopher Lindsay**, Joel Ong, and Sarbani Basu. 2023 (*ApJ*, 950:19) *Near-Core Acoustic Glitches are Not Oscillatory: Consequences for Asteroseismic Probes of Convective Boundary Mixing*
- **Christopher Lindsay**, Joel Ong, and Sarbani Basu. 2022 (*ApJ*, 931:116) *Mixed Mode Asteroseismology of Red Giant Stars Through the Luminosity Bump*

INVITED TALKS

| | |
|--|---|
| Astro Seminar Talk at the American Museum of Natural History <i>Probing the Evolution and Internal Structures of Stars With Asteroseismology</i> | November 14th, 2023 New York City, USA |
|--|---|

| | |
|---|-------------------------------------|
| IfA Astrocoffee Talk at the University of Hawai'i <i>Prospects for Probing the Evolution and Internal Structures of Stars With Asteroseismology</i> | January 13th, 2023 Honolulu, USA |
|---|-------------------------------------|

| | |
|---|--------------------------------------|
| TEDx Talk at the University of Southern California <i>Exoplanet Astronomy and the Nobel Prize Hidden in Plain Sight</i> | March 25th, 2022 Los Angeles, USA |
|---|--------------------------------------|

CONTRIBUTED CONFERENCE POSTERS AND TALKS

| | |
|---|---|
| TASC7/KASC14: Contributed Talk <i>Fossil Signatures of Main-Sequence Convective Cores</i> | July 2023 Honolulu, Hawai'i |
| TASC6/KASC13: Poster and Pitch Talk <i>Red Giant Seismology: Seismic Signatures of Convective Overshoot</i> | July 2022 Leuven, Belgium |
| Cool Stars 21: Poster <i>Mixed Mode Asteroseismology of Red Giants Through the Luminosity Bump</i> | July 2022 Toulouse, France |
| AAS 240: Contributed Talk <i>Red Giant Seismology: Seismic Signatures of Convective Overshoot</i> | June 15th 2022 Pasadena, CA |
| TESS Science Conference 2: ePoster <i>Red Giant Seismology: Seismic Signatures of Convective Overshoot</i> | August 2021 Online and Cambridge, MA |

ADDITIONAL CONFERENCE AND WORKSHOPS ATTENDED

| | |
|---|--|
| Life and Death: From Stars to Compact Objects <i>Attended workshop as a student</i> | August-September 2022 Asiago, Italy |
| MESA Summer School 2022 <i>Attended workshop as a student</i> | August 2022 Santa Barbara, CA |
| Fifty Years of the Skumanich Relations <i>Attended</i> | February 2022 Boulder, CO |

SELECTED TEACHING FELLOW EXPERIENCE

| | |
|--|---|
| ASTR 550: Stellar Astrophysics <i>Instructor: Professor Sarbani Basu</i> | August 2023 - December 2023 Yale University |
| PHYS 401: Advanced Classical Physics <i>Instructor: Professor Nikhil Padmanabhan</i> | September 2021 - December 2021 Yale University |
| ASTR 155: Introduction to Astronomical Observing <i>Instructor: Michael Faison</i> | August 2020 - December 2020 Yale University |

ADDITIONAL WORK & SERVICE EXPERIENCE

| | |
|--|---|
| Graduate Student Affiliate, Benjamin Franklin College <i>Benjamin Franklin College</i> | October 2022 - Present Yale University |
|--|---|

- Promoting interactions between undergraduates and graduate students and working with the Head of College, college staff, and undergraduate students to organize social and educational activities throughout the year

| | |
|---|---------------------------------------|
| Chair and Representative, Yale Graduate Student Assembly <i>Yale Graduate School of Arts & Sciences</i> | May 2021 - Present Yale University |
|---|---------------------------------------|

- Serving as the Astronomy department representative and Chair of the Yale Graduate School of Arts & Sciences' [Graduate Student Assembly](#)
- Leading the Assembly from May 2023 through May 2024, managing meetings 100+ graduate student representatives and steering our advocacy work in collaboration with the Yale administration

AWARDS, FELLOWSHIPS, AND HONORS

| | |
|---|------------------------|
| Yale Gruber Science Fellow | August 2020 - Present |
| <i>"Awarded to the most highly ranked applicants to Yale PhD programs in the life sciences, cosmology, and astrophysics. This Fellowship is the most prestigious award offered by Yale's Graduate School of Arts and Sciences to incoming science students in recognition of their outstanding accomplishments and exceptional promise." Includes Stipend and Tuition for the first two years of study and an additional \$9,500 award.</i> | |
| USC Order of the Laurel and the Palm | May 2020 |
| <i>"The highest honor accorded to undergraduates completing their programs of study. Less than one percent of undergraduates earning their degrees are selected as members of the Order of the Laurel and the Palm."</i> | |
| USC Provost Research Fellowships | May 2019 - May 2020 |
| USC Summer Undergraduate Research Fund (SURF) | Summers 2017 & 2018 |
| USC Student Opportunities for Academic Research (SOAR) | August 2016 - May 2018 |
| USC Warren Bennis Scholars Leadership Program | August 2018 - May 2020 |
| USC Trustee Scholar (Full Tuition Remission) | August 2016 - May 2020 |
| USC University Scholarships | August 2016 - May 2020 |
| USC Resident Honors Program | August 2016 - May 2020 |
| USC Thematic Option Honors Program | August 2016 - May 2020 |
| Regeneron Science Talent Search (STS) Scholar | 2017 |
| Davidson Fellows Laureate (\$50,000 award) | 2016 |
